SOLAR SMART BUS SHELTER
WYST1826
The WYST1826 is a solar-powered bus shelter that is designed to be a sustainable and eco-friendly solution for public transport. It features a solar panel roof that provides power to the shelter's lighting and other features. The shelter is also equipped with a digital display that shows the bus route and arrival times. The WYST1826 is a perfect solution for cities looking to improve their public transport infrastructure.
